Women for Water Partnership is excited to launch a brand-new opportunity of membership:

Supporter of Women for Water Partnership

The future of our planet depends on women and water, and therefore we have created this brand-new opportunity for women and men to contribute to our consistently raising the profile of women in the water and development sector, both in their professional capacity and in their role as an important stakeholder in society.

On a regular basis and for a long time, individual women and men call us to say they want to contribute to the work WfWP is doing. In a lot of cases, they are individual women that we got acquainted with through their jobs. Or men that cannot be a member of a women’s organization as such.

Why connect with WfWP as supporter?

Because you:

• want to support to the topic (Women and Water), connect SDG 5 (gender equality) and 6 (water and sanitation)
• have seen our work (especially globally/ regionally) and support the ideas, mission, and strategy
• have expertise to offer on a voluntary basis or want to support us financially
• are (young) researchers / academics and want to connect for research reasons
• like the fact we bridge the gap between global and local
• want to support women and water without obligations with regular meetings and/ or administrative burdens or becoming a member of (another) women’s network
• you are an individual, but want to support none-the-less.

So become a member of our supporter’s network:

What do you get:

• access to an amazing worldwide network of women involved in water from all kinds of different disciplines, organizations, and backgrounds
• access to a mentoring scheme (under development) for young professionals, wanting to work or working in the sector
• a very safe, confidential way of asking for advice / discuss on policy and politics (e.g. if you are in government)
• loads of information or pointers via the website, social media, published research etc.
• possibility to contribute to advocacy papers, letters, research
• the joy and satisfaction by supporting women grassroots’ projects
• opportunity to visit projects and encourage the women implementers, and providing your expertise to the base of the pyramid seeking to achieve SDG 6
• If the mentorship format emerges, you can participate in that as mentor or mentee
• be an observer to our General Assembly and other events
• invitation to attend webinars with high qualified speakers or to be invited to be a speaker

**What do we request:**

• you subscribe to be a supporter of WfWP
• the fee is 100 Euro per year or 250 Euro for three years or 15 hrs. of voluntary support per year.
  If you have provided us actively with advice, support, research, proposal writing, etc. for more than 15 hours per year (otherwise billable), or helped us to get additional funding for a project, we will wave your membership fee for the next year
• you send us your CV and we will promote /or connect you with our members to engage
• we can call on you for support/advice based on your expertise
• you promote WfWP and its goals everywhere you go
• help us seeking partnership and grants for WfWP activities (overall or locally)

If you want to discuss or need more information: send a message to secretariat[at]womenforwater.org.
If you are already convinced: please fill out the form (link) and send.
Please note: if you are a member of one of our member-organizations (Member Organisations - WfWP (www.womenforwater.org)) you are automatically connected. However, if you want to be connected more directly or become a personal supporter: please do so!
